Region Commander RDML Mary M. Jackson

I am pleased to announce the official launch of our first quarterly SAPR newsletter as Sexual Assault Awareness and Prevention Month (SAAPM) kicks into full gear. This newsletter is intended to provide you with the relevant tools and information to assist in the all hands effort to eliminate sexual assault from our workforce. Though prevention and awareness are a year-round effort, I urge each of you to get involved in SAAPM events hosted at your installations and in the community. Promoting awareness of the problem is the first step in strengthening our prevention and response strategies.

This year's SAAPM theme is:

"Eliminate Sexual Assault. Know Your Part. Do Your Part." Sexual assault, harassment, retaliation, and other criminal behaviors have no place in our community. From the most senior leaders to the most junior Sailors, each of us has the specific responsibility to step up and step in when something is not right without fear of retaliation, reprisal, or ostracism.

Our core values and basic human rights require that everyone be treated fairly and with dignity and respect. As your Commander, I remain committed to ensuring our outstanding Southeast Team fosters an environment that promotes professionalism, respect, and

Commander,
Navy Region Southeast

trust. We will ensure victims have full confidence in their reporting options and services, and are treated with decency, sensitivity, and respect.

Thank you for all that you do in support of our SAPR program. Together, we will make a difference.

ELIMINATE SEXUAL ASSAULT.
KNOW YOUR PART.
DO YOUR PART.

Region Command Master Chief CMDM (SS/AW) Michael K. Jackson

Shipmates,

It's up to us to end sexual assaults in our Region. If you see something that doesn't seem right—make the right call, even if it's a hard call to make. Know your part to step up and intervene. I expect the Mess to lead our sexual assault awareness and prevention effort from the deck plates, but each of us has a role in preventing

and eliminating destructive behaviors from our ranks.

Show your SAPR and DAPA teams some support this month by getting out there and getting involved at local SAAPM and National Alcohol Awareness Month events.

Let's anchor up and make a difference!

CMDM,
Navy Region Southeast

FY16 DON SAPRO / USFF Training Schedule

DON SAPRO Pure Praxis

15 Apr - JB Fort Worth

Navy Region Southeast Recognizes Four Exceptional SARC Nominees

Kings Bay, GA - Navy Region Southeast recognized four nominees as Exceptional Sexual Assault Response Coordinators (SARC) during a joint SARC/Civilian Victim Advocate (CVA) training hosted on board Naval Submarine Base Kings Bay in February 2016.

Each year, the Department of Defense (DoD) Sexual Assault Prevention and Response Office (SAPRO) recognizes individuals whose work has been particularly noteworthy and demonstrates outstanding service in support of sexual assault victims and the Navy's SAPR program. 16 SARCs across 11 Regions were nominated for the Commander, Navy Installations Command (CNIC) 2016 Exceptional SARC Award. The winner is expected to be announced during Sexual Assault Awareness and Prevention Month (SAAPM), and will advance to compete for nomination as the 2016 DoN Exceptional SARC. The competition will culminate in one employee being named as the 2016 DoD Exceptional SARC.

Tina Vaughn, MSW, Navy Region Southeast SARC

CNRSE hosted our first annual SAPR training for SARCs and Civilian Victim Advocates (CVAs) at SUBASE Kings Bay from February 22-25 2016. Through the professional facilitation of Catharsis Productions, our SARCs and CVAs had the opportunity to identify individual strengths and weaknesses in their facilitation skills. The training focused on content as well as their delivery and means of engagement. This was as monumental as it was necessary to ensure our frontline subject matter experts are able to facilitate impactful SAPR dialogue, artic-

ulate sexual assault prevalence, and convey the impact of victimization on our members and our Navy.

In addition to the professional value of the training, the SARCs and CVAs received continuing education hours toward credentialing and had the rare opportunity to interact and collaborate with each other, the RSARC, SAPRO and a CNIC Program Analyst. Our team went home with a toolbox full of resources and was very excited to put their new tools to use in the field!
